PROJECT UPDATE

The City's Contractor, Omni Engineering, is set to begin pavement resurfacing on Walnut St., Coolidge St., 1st St., and Vine St., on Monday, May 6th. Construction is expected to last 2 weeks, weather permitting.

The Contractor will cold mill all of the existing street pavement for each section, perform any street base repairs within the section and place the new street pavement in phases.

Access to the homes and streets will be maintained during the cold milling process. Short term access restrictions will occur during the placement of the new asphalt paving.

Access will be restricted at times

Vicinity map showing construction areas

Cold Milling will remove the upper section of the existing street surface.

Hot mix asphalt (HMA) paver will place the new road surface.
